

**August 23, 2014**

Challenged by a commitment to follow the teaching and behaviour of their founder JESUS, a group of extremist fundamentalist Christians are invading parts of Canada announcing their plans for a new state they call "THE KINGDOM OF GOD".

It has been reported that these radical fundamentalists have infiltrated and recruited followers from a variety of Christian denominations in order to further their cause. A few of the ministers and priests from these denominations have spoken out against these extremists and expressed their surprise when they discovered some of these fundamentalist "cell groups" in their own churches.

These terrorists have no fear of death and are prepared to give up everything, including their lives for this KINGDOM OF GOD. These radicals who are attempting to convert everyone to belief in JESUS (the prophet, priest and king of this new kingdom), have issued a nation-wide warning that there is no safe place to hide. The "violence" perpetrated by some of these fundamentalists is unprecedented in such acts as feeding the poor, helping the broken hearted, speaking encouraging words to the downhearted, praying for those in authority, healing the sick, doing miracles of blessing, working for justice for all and sharing the good news of THE KINGDOM OF GOD.

Reports have verified that these radicals willingly commit "suicide" by dying to their own lives for the sake of others. This seems to confirm the previous report that there is no safe place to hide from their-extreme acts of forgiveness, mercy and kindness. These extremists prey on the downtrodden of society by introducing them to the power of Almighty God in the name of their founder JESUS who in turn delivers and heals drug addicts, alcoholics, broken relationships and marriages.

There are also confirming reports that these extreme fundamentalists consider the materialism of the capitalist societies to be a false god and preach that "souls" are more important than possessions.

It seems evident that nothing can stop their nation-wide plan to invade churches, mosques, schools, universities, businesses, even homes with their "violent" and extremist messages of "convert and receive forgiveness, mercy and hope."

Do you recognise any of these Christian Fundamentalist Extremists...?

A final thought; after reading the last paragraph of this article, I was struck by the similarity of the Islamic and Christian directive to convert the entire world to their respective faiths. Though the eternal destination and method of conversion of Islam and Christianity are completely opposite, Islam's edict, *convert or die* is true for both. Selah.

Shalom.
